

Sweet Haus Launches the Acadia: A HUD-Certified 700 Sq Ft Manufactured Home Offering Big Comfort in a Compact Footprint

Chesnee, SC – Sweet Haus Tiny Cabins is proud to unveil its latest innovation in modern, attainable living: the **Acadia** — a 700 sq ft HUD-certified manufactured home that redefines what's possible in small-scale design. Featuring **two bedrooms and two full bathrooms**, the Acadia is thoughtfully crafted for those who value smart spaces, timeless style, and high-quality living.

The Acadia marks a milestone for Sweet Haus. After a **two-year process of securing approvals to meet HUD certification standards**, the home is now available nationwide. This certification ensures the Acadia can be placed and permitted on your property across the country, opening the door for more people to experience the Sweet Haus way of living.

As the company's first **two-bed, two-bath manufactured home**, the Acadia brings a new level of flexibility to the lineup. Whether it's a starter home, a downsizing solution, or a short-term rental property, the Acadia fits the bill—without compromising on comfort or aesthetics.

"We designed the Acadia to prove that small-scale living can be both functional and beautiful," said Todd Garland, Owner of Sweet Haus Tiny Cabins. "After years of hard work to achieve HUD certification, we're thrilled to deliver a home that is customizable, shippable nationwide, and ready to meet the needs of modern homeowners."

Key Features:

- **700 sq ft** of open-concept living space
- **Two full bedrooms and two full bathrooms**
- **Fully HUD-certified** after two years of approval processes
- **Customizable options** for finishes and layouts
- Shippable **nationwide** with turnkey delivery options
- Built to meet modern energy efficiency standards

The Acadia is available now and joins Sweet Haus's growing family of handcrafted homes designed for homeowners, homesteaders, and tiny home communities across the country. Because downsizing shouldn't mean compromising.
